

Josh Rogers

Creative Developer

romanrogers.co

Experience:

Designer (& Junior Developer) @ mojo [*male grooming booking app*]
Feb 16 - Mar 18

Led user centred design process of iOS app and website from wireframes to interactive prototypes, creating innovative cross platform experiences. Focused on mobile usability, clean design and improved performance. Designed and developed static customer websites. Constructed company identity - evaluated market data, studied consumer trends, researched competitor strategies and built emotional relationships with customers. In-house photographer.
